2017'S COOLEST DEVELOPMENTS

Nine exciting projects—from the suburbs and every quadrant of DC—opening this year

AN UPDATED WEST END ►

The sleek fire station and library coming to this ritzy DC neighborhood in 2017 veer dramatically from how you'd traditionally imagine such community staples. Fifty-five units of affordable housing (for residents earning no more than 60 percent of area median income) will sit above the fire station, while the 21,000-square-foot library will be part of a luxe condo project, the Westlight. Both buildings are slated to be done by summer.
